Visual Solutions

**THE ULTIMATE VISUAL SOLUTIONS
FOR ALL REQUIREMENTS.**

MONEYSUPERMARKET GROUP

Moneysupermarket Group is an established member of the FTSE 250 and a price comparison website-based business specialising in financial services.

It enables consumers to compare prices on a range of products, including energy, car insurance, home insurance, travel insurance, mortgages, credit cards and loans.

It recruited Ultimate Visual Solutions (UVS) to provide control solutions for the LED video wall at its new product design and innovation centre at No.1 Spinningfields in Manchester.

UVS used its own Lucidity video wall controller system to efficiently create and manage the unique display requirements for the custom-built video wall, which covers and links both floors of the building.

The LED video wall has an unusual resolution of 800x2400 pixels and is the hub of the company's expanding product engineering team, which designs purpose-driven digital experiences for Moneysupermarket Group customers.

The UVS Lucidity control software allows the client to easily configure the bespoke display layouts required for their different display scenarios and these are quickly launched via an integrated touch screen controller, courtesy of the Lucidity control application program interface (API).

Data source inputs include web content, PC inputs and video conferencing. This allows the video wall to be used by Moneysupermarket Group staff for meetings, collaboration, presentations and for it to be specifically tailored for VIP visits.

The UVS Lucidity WBC70 is easily capable of managing this unusual resolution and it allows the display of the multiple data source types simultaneously. All sources are displayed, using the Lucidity control platform, in their native aspect ratio; meaning there are no stretched images.

The project involved close liaison with the Moneysupermarket Group web page development team to ensure the web content was also correctly displayed

The result is a stunning, dynamic and vibrant display canvas that meets Moneysupermarket Group's immediate and future needs.

The Lucidity brand is aimed at clients who require a bespoke solution and is also available from UVS to AV system integrators for resale to their end clients.

For further information on UVS and how to arrange an appointment at either our Burnley or London demonstration venue, **[click here](#)** or call **01282 606525**.

UVS (Ultimate Visual Solutions) provide turnkey solutions for all types of audio visual and visual display applications. Our projects range from a single display screen in a conference room to a multi-screen video wall system within a 24/7, mission-critical operation such as a Data Centre or Special Operations Room.
