## **T5 INTERACTIVE TOUCH TABLE**

## Technical sophistication combined with innovation to create the most elegant and uniquely designed interactive touch table around.

**The T5 multi touch table is the most innovative solution for meeting and huddle rooms.**

It's designed so that people sitting around the table can comfortably reach the central touch area from any position.

In a sleek metal design the table structure is ergonomic (from 6 up to 10 people) and includes a high performance controller based on the latest Intel CPU. A professional, high brightness 65" LCD, with a pin-sharp resolution of 3840x2160 pixels and extended viewing angles, delivers perfectly smooth and vivid images, with high-quality content, even at the extreme angles for the people seated around the table. In addition, it comes with four side connection bays equipped with power supply, video signal and data connections.

The table surface is a clear transparent multi touch glass with 40 simultaneous touch, pressure and palm recognition. All around the edge of the glass is a 20 cm surface in acrylic nanotech resin, that is anti-fingerprint, anti-scratch, antibacterial, with a soft feeling matt finish. As an option it's possible to equip the T5 with a wireless charger for mobile phones and smart devices that are hidden below the surface.

The T5 multi touch table can be joined with a squared extension to build a longer table. The base table and the extension can be joined with additional modules to compose different table layouts including L and U shapes.

### Innovative features:

**Designed for meeting rooms** and for huddle rooms with special attention to the ergonomics

**All in one solution** with integrated display, controller and structure managed by a single power button

**Extensive connections possibilities** through exclusive and customizable side connection bays solution.

**High-tech materials** like acrylic nanotech resin and ultimate touch glass.

**Mechanical variants** from lift version up to table extension for bigger meeting rooms

**Wide range of customization** of the material, surface and structure colors and connections possible.

**Modular concept** with main unit and extension adaptable to any shape, from linear to U shape.

**Classic Italian design** elegant and sleek coupled with technical sophistication.

# Technical Specification

GENERAL			
<b>Dimensions</b>	187 x 125 cm	<b>Weight</b>	180 kg
<b>Height</b>	74 cm	<b>Power consumption</b>	Typically 300W
<b>Worktop</b>	nanotech acrylic resin	<b>Touch PC version</b>	Projected capacitive

DISPLAY			
<b>Panel type</b>	IPS	<b>Color Gamut</b>	→68%
<b>Diagonal</b>	65" 16:9	<b>Response time</b>	8ms (G to G)
<b>Brightness</b>	→500cd/m2	<b>Use</b>	H24
<b>Resolution</b>	3840 x 2160 pixel	<b>Backlight</b>	Direct LED
<b>Pixel pitch</b>	0,38 mm	<b>Backlight</b>	→60.000 h (lum. 50%)
<b>Colors</b>	1,07G (10 bit)	<b>Viewing angle</b>	178°

MECHANICAL AND CONNECTIVITY			
<b>Surface dimension</b>	187 x 125 cm	<b>-&gt; Power Button</b>	Power Button Blu LED (2 slot)
<b>Structure</b>	steel	<b>-&gt; Data USB</b>	Data USB 3.1 type A (1 slot)
<b>Colors</b>	black and aluminium (RAL)	<b>-&gt; Recharge USB</b>	Dual USB type A with 2A (2 slot)
<b>Coating</b>	Fusion-bond epoxy powder	<b>-&gt; Power Plug</b>	Multiformat EU CEE7/16, UK BS-1363, USA (2 slots)
<b>Active touch area</b>	142.8 x 80.3cm InGlass™	<b>-&gt; HDMI/VGA</b>	HDMI type A (1 slot)
<b>Pressure Detection</b>	1000 levels	<b>-&gt; VGA</b>	DB15 pin receptacle (2 slots)
<b>Multiple touch</b>	←= 40 simultaneous touch	<b>-&gt; Network</b>	Dual RJ45 receptacle (2 slots)
<b>Transparency/Light transmission</b>	→89%	<b>-&gt; VGA</b>	DB15 pin receptacle (2 slots)

TABLE EXTENSION			
<b>Surface dimension</b>	125 x 125 cm	<b>Worktop</b>	nanotech acrylic resin
<b>Structure</b>	steel	<b>Weight</b>	←70 kg
<b>Colors</b>	black and aluminium (RAL)	<b>Connection inputs</b>	2 side bays each with 8 slots

OPTIONS			
<b>Colors</b>	Any RAL colors for the steel structure	<b>Touch PCAP</b>	projected capacitive touch instead of inGlass
<b>Wireless charger</b>	up to one each corner of the table	<b>Top</b>	full glass top (with PCAP touch)

UVS (Ultimate Visual Solutions) provide turnkey solutions for all types of audio visual and visual display applications. Our projects range from a single display screen in a conference room to a multi-screen video wall system within a 24/7, mission-critical operation such as a Data Centre or Special Operations Room.

The business is led by four senior colleagues who, between them, have more than 70 years' combined Audio Visual, Control Room and Visual Solutions experience.
