Betsi Cadwaladr University Health Board

The Betsi Cadwaladr University Health Board (BCUHB) is the largest health board in Wales. It has its headquarters in Gwynedd and covers the regions of Anglesey, Gwynedd, Conwy, Denbighshire, Flintshire and Wrexham.

It provides a range of primary, secondary, community and mental health services to a population of about 700,000 people and chose video wall technology supplied by Ultimate Visual Solutions (UVS) for its new Security and Network Operations Centre.

As part of its improvement programme, the BCU Digital Data and Technology Team established a Security and Network Operations Centre (SNOC) which is located with its ICT Service Desk.

The SNOC collects, analyses and displays data about the performance, security, and availability of the network and its devices to help its team of ICT professionals to detect, diagnose, and resolve issues, as well as to prevent and respond to cyber security threats.

The SNOC Staff have responsibility for monitoring BCUHB's vast Infrastructure in support of its 19,500 staff, who work at more than 250 locations across North Wales.

The BCUHB control room system installed by UVS comprised a Barco CTRL KVM over IP solution and a Barco 4x2 video wall.

Installation of the solution was completed over a compressed timeline with a minimum amount of fuss. The Barco video wall solution has transformed our SNOC and has enabled us to enhance our service delivery and our proactive maintenance capabilities.

Martin Parry, ICT Support & Delivery Manager

The BCU Digital Data and Technology Team works to ensure it can deliver exceptional IT support and solutions to enable healthcare professionals, patients, and administrators and to support the increasing demands and expectations of the organisation.

All at UVS are pleased to have been able to deliver this project, in order to help them do that in the most efficient way possible.

For further information on UVS and how to arrange an appointment at either our Burnley or London demonstration venue, [click here](#) or call **01282 606525**.

UVS (Ultimate Visual Solutions) provide turnkey solutions for all types of audio visual and visual display applications. Our projects range from a single display screen in a conference room to a multi-screen video wall system within a 24/7, mission-critical operation such as a Data Centre or Special Operations Room.
